SUMMARY

Dedicated and technically proficient developer with a strong foundation in frontend engineering, full-stack development, and artificial intelligence. Experienced in building responsive web applications and scalable database architectures. Passionate about leveraging modern web frameworks and AI tools to create efficient, user-centric digital solutions.

EDUCATION

Integrated Master of Computer Applications (IMCA)

Depaul Institute of Science and Technology (DiST) | MG University, Kottayam • 2022 - 2027

Higher Secondary (Plus 2) - Science

Govt. Boys HSS, Aluva | Board of Higher Secondary Examination, Kerala • 2022

Secondary School Leaving Certificate (SSLC)

St. Sebastian HS, Kanjoor | Board of Public Examination, Kerala • 2020

PROJECTS

Digital Library & Story Publishing Platform

PHP, MySQL

- Designed and developed a comprehensive digital reading and publishing platform with a secure PHP/MySQL backend to manage digital assets and story databases
- Implemented multi-role user authentication to differentiate and manage permissions for readers and publishers
- Built dynamic story upload systems for an intuitive, streamlined content-creator experience

Online Aquarium Store

ASP.NET, C#

- Developed a fully functional e-commerce web app for an aquarium retail business using ASP.NET and C#
- Built a robust architecture for inventory tracking and user management, with a clean UI to optimize browsing and checkout

SKILLS

Frontend

HTML, CSS, JavaScript (JS), React, Angular

Backend & Core

PHP, ASP.NET, C#

Databases

MySQL, SQL, MongoDB

Tools & Concepts

Figma, AI & ML Engineering, Prompt Engineering, UI/UX Design Principles

CERTIFICATIONS

Frontend Developer (React)
